بسم الله الرحمن الرحيم

IAP – Institute for Astronomy and Astrophysics
www.aecenar.com/institutes/iap
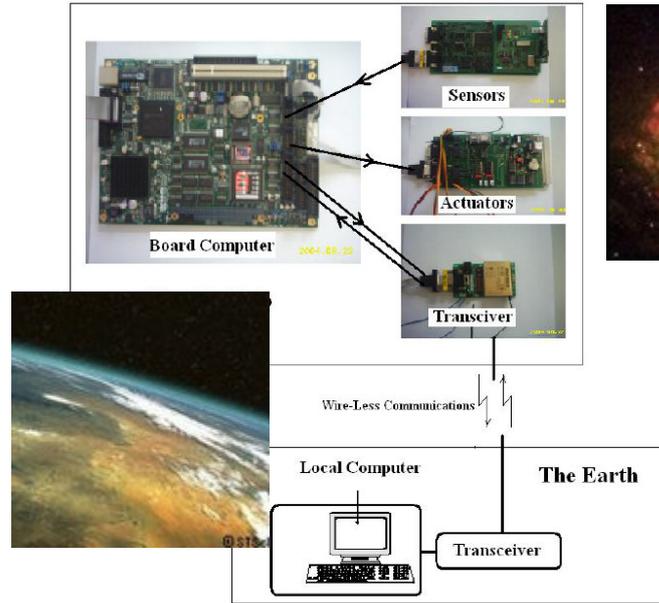

_____

A member of AECENAR Applied Research Center

Research fields ميادين الابحاث

Modeling Interstellar Processes and Star Building

Data Aquisition with orbit sensors

IAP Laboratory مختبر المركز

Computer Simulation Lab

مختبر ايلكترونيكي
Electronics Lab

Actual Projects

Migration of former „VaEf alternative airship Lotte" control system to the IAP satellite based control system

Building of a simulation model for the first phases of star building with the CFD software package FreeCFD
